

# MAXIPLUS-4V

## EXTENDED SURFACE MINI-PLEAT MEDIUM FILTER

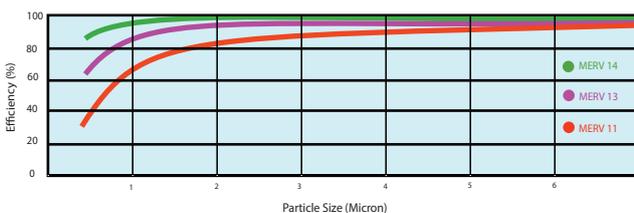

- High Capacity
- All Plastic Construction
- 100% Glass Media
- Moisture Resistant
- Chemical Resistant
- Lower Energy Cost
- Low Resistance

Maxiplus -4V by Airmax is enclosed a fine glass fiber media. Filter are made from high strength, high impact 100% glass media. it is extremely durable, resists tearing and abrasion, and is highly damage resistant. Low Resistance and Saves Energy, The 4V design consisting of 8 mini-pleat media packs with glue bead separators enable Maxiplus-4V filter to operate at low resistance to air flow. 7/8" Header attached on the cellside is easy for front and side access installation in AHU. Recommended final resistance up to 1.5 In.Wg (380 Pascal)

### Technical Data

Model Number	Size W x H x D (Inc.)	Actual Size W x H x D (mm.)	Rated Initial Resistance (In.W.G.)	Airflow Capacity cmm/cfm	Recommended Final Res. (In.W.G.)
